to meet your auto body repair
and maintenance needs*

Comprehensive Service for Your Peace of Mind

Precision Repairs

We're often asked, "Can my car be repaired to be the same as before the accident?" Our answer is yes. By working with the right equipment, using the correct parts, and employing properly trained technicians, Center Square Motors is able to repair your vehicle to its original state or better.

Electronic vehicle measuring helps us ensure your vehicle is repaired to original factory tolerances.

Quality Workmanship

To ensure a quality repair, our auto body specialists undergo ongoing training through industry-recognized organizations and equipment suppliers. We also use precision techniques like electronic vehicle measuring, heated downdraft refinishing, and manufacturer-recommended welding. Our mechanical department performs electronic four-wheel alignments and computer diagnosis to correctly analyze and reset onboard computer codes.

A rapid repair area means you get your vehicle back faster.

Top-quality paints, custom mixing and application, and heated downdraft refinishing ensures your vehicle's paint matches its original color and finish perfectly.

Exact-Match Paint

With our computerized paint shop, Center Square Motors can prepare a custom mix of your vehicle's exact paint color and apply it under very similar conditions as in the factory. We use HVLP (high volume-low pressure) spray guns to control overspray and apply a clear coat to protect the finish from dings and UV fade. Then we bake the vehicle at 135° for 30 minutes to be sure the finish is washable and can be reassembled without damaging the finish.

On-site estimates, electronic filing, and car rental options streamline the repair process.

Our Mission and Guarantee

We perform top quality workmanship backed by a lifetime warranty to the same owner.

Center Square Motors features an ultra-modern 20,000 square foot repair facility with state-of-the art precision equipment.

Fast and Friendly Service

Center Square Motors consistently earns top customer-satisfaction ratings so you can be confident in your decision to work with us.
