Wilson Legal Solutions Gets Dirty for a Good Cause

*Team Wilson Proves it "Likes to Do the Dirty Work"
During MuckFest MS Philadelphia*

NEWTOWN SQUARE, PA (6/10/2013)...Crisp, clean, and pristine. That's how members of Wilson Legal Solutions looked the morning of Sunday, June 9. But within 90 minutes, the eight-person team was covered from head to toe in mud - having just completed the 2013 MuckFest MS Philadelphia to benefit the National Multiple Sclerosis Society.

MuckFest participants must run, climb, and crawl through a five-mile obstacle course that features a gauntlet of muck-filled mazes, pits, and craters with over twenty gigantic obstacles that spin, swing, and fling you up, down and sideways through the course. Heavy rain the day before helped to make the course especially mucky - as Karen Costello, a project coordinator at Wilson Legal Solutions attests. "It was five miles of pure mud," she says. "But we stuck together as a team, helped each other, and had a lot of fun."

Participants for Wilson Legal Solutions' team included Dan McGinn, Valerie Burnett, Karen Costello, Brian Reyner, Sarah Reyner, Than Lunger, Sean Murphy, and Brad Oelmann.

The event took place at the Ellis Preserve in Newtown Square. For information please visit the [MuckFest website](#).

About Wilson Legal Solutions

Wilson Legal Solutions helps law firms maximize the benefits of technology to reach new levels of operational efficiency and profitability.
